PROFESSIONAL SUMMARY

Software Developer with professional experience in frontend development, web development and digital product maintenance. Currently working as a Frontend Developer at Motoreto, building interfaces with Vue.js, JavaScript, HTML and CSS, resolving issues and participating in code reviews and pair programming. I complement professional experience with full-stack projects such as EasyLearn and Sharenergy, using React, TypeScript, Python, FastAPI, Java, PostgreSQL, SQLite, SQLAlchemy, Docker, JWT and REST APIs. Problem-solving oriented, with a focus on API integration, continuous improvement and building functional, maintainable web solutions.

PROFESSIONAL EXPERIENCE

Frontend Developer

Motoreto — Leganés, Madrid, Spain · 10/2025 – Present

- Develop and maintain responsive web interfaces using Vue.js, JavaScript, HTML and CSS.
- Implement and improve product features and existing web application functionality.
- Build user interfaces focused on clear, functional and responsive user experiences.
- Investigate and resolve issues and deliver improvements to existing functionality.
- Work across frontend and backend contexts and with databases according to project requirements.
- Develop interactive solutions using frameworks such as Vue.js, React and Angular.
- Participate in code reviews and pair programming within a collaborative development environment.
- Use Git for version control and coordinated team development.
- Build and maintain custom web applications using PHP, JavaScript, HTML and CSS.

Diagnostic Imaging Technician

Hospital Infantil Niño Jesús — Madrid, Spain · 09/2019 – 02/2021

- Worked in a multidisciplinary, high-responsibility environment following established procedures and protocols.
- Operated specialised software and equipment while applying safety procedures.
- Coordinated and communicated with professionals from different areas in a demanding working environment.

Hospital Support Assistant

Hospital Universitario HLA Moncloa — Madrid, Spain · 07/2016 – Present

- Work in a high-responsibility environment requiring communication, adaptability and coordination across multidisciplinary teams.
- Manage tasks under pressure while following operational and safety procedures.
- Support diagnostic and therapeutic procedures, patient transfers and the handling of documentation and samples.

SELECTED PROJECTS

EasyLearn — AI English Learning Platform

Full-stack learning platform built with React and TypeScript on the frontend and FastAPI, Python and PostgreSQL on the backend.

- Implemented JWT authentication, placement testing, results, lessons, practice and user progress tracking.
- Designed a modular backend architecture using SQLAlchemy and PostgreSQL and containerised the environment with Docker.
- Integrated and validated REST APIs for frontend-backend communication, including endpoint testing.
- Built a structured learning experience with progression logic and AI-oriented functionality.

Tech: React · TypeScript · Python · FastAPI · PostgreSQL · SQLAlchemy · Docker · JWT · REST APIs

Sharenergy — Powerbank Rental Web Prototype

Full-stack web application prototype for managing portable powerbank rentals through station-based rental flows.

- Developed the backend with Java and Javalin, using JDBI and SQLite for persistence and REST endpoints for the rental lifecycle.
- Implemented battery availability, rental, return, timing and automated price calculation logic.
- Built the frontend with JavaScript, HTML and CSS and integrated it with the backend APIs.

Tech: Java · Javalin · JDBI · SQLite · JavaScript · HTML · CSS · REST APIs

EDUCATION

Higher Technician in Multiplatform Application Development (DAM)

CCC Centro Oficial de Formación Profesional — Madrid, Spain · 10/2024 – 02/2026

TECHNICAL SKILLS

Frontend: React, Vue.js, TypeScript, JavaScript, HTML5, CSS3, Responsive Web Design, Web Development

Backend: Python, FastAPI, Java, PHP, RESTful APIs, API Integration, JWT

Databases: PostgreSQL, MySQL, SQLite, SQLAlchemy

Tools & Development: Docker, Git, GitHub, Vite, Version Control, Code Review, Pair Programming, API Testing & Validation

Additional: AI, Generative AI, Automation, SEO, Technical Support

CERTIFICATIONS & COURSES
